

Settings

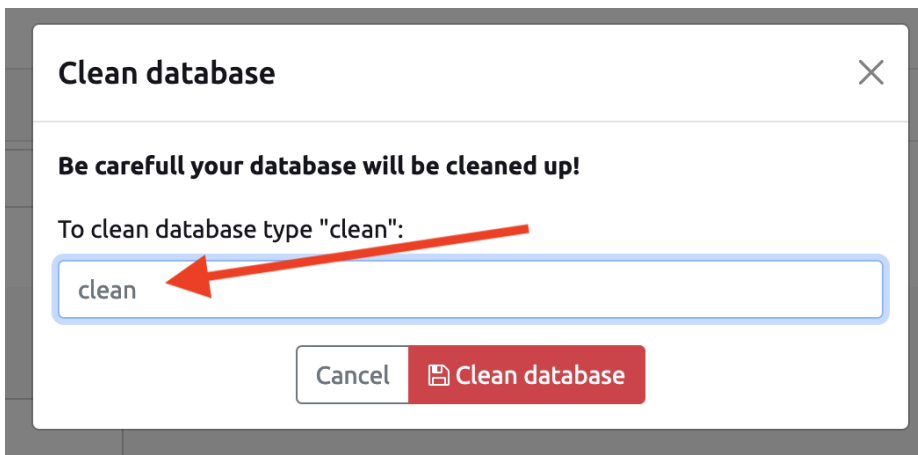

- How to clean up the database?
- Order Email Notifications (for customers)

How to clean up the database?

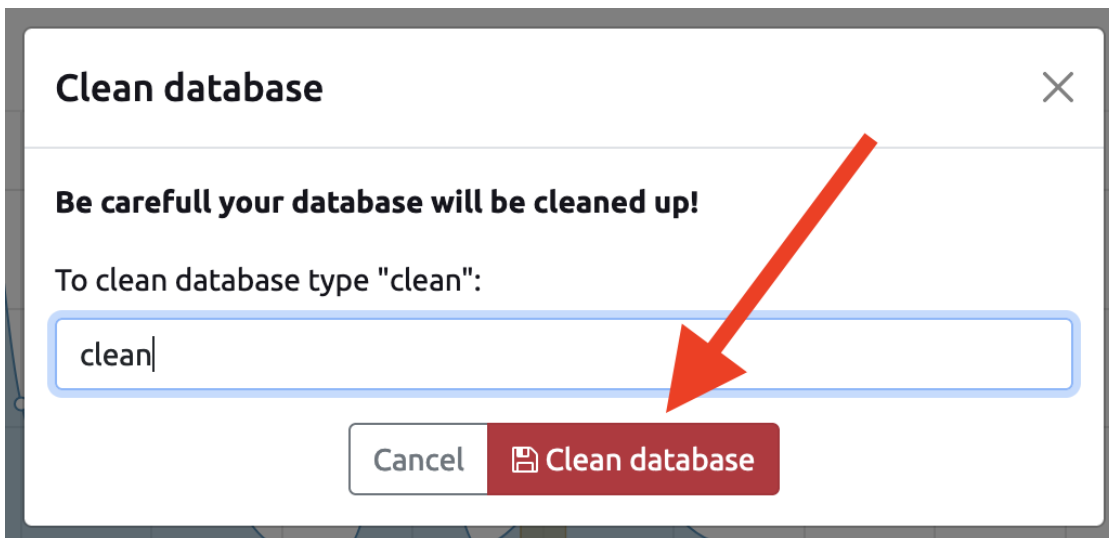

Before you begin the real usage you will probably want to remove all the demo data. To clean the database go to the Settings menu, then Clean database:

In the modal window, you need to type "clean". Warning! All data will be removed: products, categories, orders, users, etc - all the data.

Then click "Clean database":

Order Email Notifications (for customers)

On an order creation or status change an email notification might be sent. By default, there is a notification for the new order, which sends out to a customer if emails is specified:

The screenshot shows the BOUNDELESS commerce admin interface. The sidebar on the left contains navigation links: Home, Orders, Catalog, Inventory, Customers, Discounts, Product Feeds, Settings, My account, Locale, Catalog filter sets, SEO templates, Email settings, Shipping methods, Payment methods, Tax settings, Checkout settings, and Order Email Notifications (highlighted with a red box). The main content area is titled 'Order Email Notifications' and includes a '+ Create notification' button. Below this, a table titled 'Notify customer when:' shows a notification for 'Order created'. The table has two columns: 'Conditions' and 'Email Notification'. The 'Email Notification' column contains a 'Subject' field with the text 'Thank you for your order!' and a 'Body' field with HTML code. Red arrows point to the 'Subject' and 'Email body' fields. A 'Save' button is located at the bottom right of the notification configuration area.

Conditions	Email Notification
Order created	<p>Subject</p> <p>Thank you for your order!</p> <p>Body</p> <pre><div> <h1 class="text-center">Thank you for your order!</h1> <p>Your order id is #{{{ORDER_ID}}}.</p> <p class="text-center"> View order </p> {{{ITEMS_LIST}}} </div></pre>

How to customise Email notifications?

When a template is rendered there are available variables:

```
{
  "ORDER_URL": "http://localhost:3000/thank-you/46ce25ce-37e1-4081-a737-420cb7dfe61b",
  "ORDER_ID": 29,
  "ORDER_PUBLIC_ID": "46ce25ce-37e1-4081-a737-420cb7dfe61b",
  "ORDER_SUM": "45.00 $",
  "TRACK_NUM": "",
  "CUSTOMER_FULLNAME": "John Snow",
  "CUSTOMER_FIRSTNAME": "John",
  "CUSTOMER_COMMENT": "Some comment from John",
  "ITEMS_LIST": "<div id=\"order-notification\"><div class=\"view-order-widget\" id=\"s-0\"><table
class=\"table table-bordered table-hover table-striped\"><thead><tr><th class=\"item\"></th><th

}
```

Templates are using Mustache syntax.

There is an example for custom Email notification:

```
<p>
☐Dear {{CUSTOMER_FULLNAME}},<br/>
☐Thank you so much for your order!
</p>
<p>You have selected the following items:</p>
<ul>
☐{{#ITEMS}}
☐<li>
☐<div>{{product.sku}} - {{product.title}}</div>
☐<div>
☐☐<strong>{{qty}} qty</strong>
☐</div>
☐<div>
☐☐<strong>Price: {{final_price_formatted}}</strong>
☐</div>
☐<div>
☐☐<strong>Total: {{total_price_formatted}}</strong>
☐</div>
☐</li>
☐{{/ITEMS}}
</ul>
<p>
☐Thank you,<br/>
☐Your Support Team
</p>
```
