

Creating commodity group and characteristics

Go to "Catalogue" -> "Commodity groups" and click "Add":

The screenshot shows the 'Commodity groups' page in the BOUNDLESS commerce interface. The left sidebar contains a 'Catalog' menu with options: Home, Orders, Catalog, Products, Categories, Import, Commodity groups (highlighted), Labels, Manufacturers, and Collections. The main content area is titled 'Commodity groups' and features a '+ Add' button. A table lists commodity groups with columns for 'Title', 'Is Default?', and an 'Archive' button. The table contains one entry: 'Cases for mobile phones' with 'Is Default?' set to 'Yes'. A red arrow points from the '+ Add' button to the 'Cases for mobile phones' row. Another red arrow points from the 'Commodity groups' menu item in the sidebar to the '+ Add' button. The bottom of the page shows 'Total items: 1' and 'Total pages: 1'.

In the form that opens, enter the name of the commodity group and press "create":

The screenshot shows the 'Create commodity group' form in the BOUNDLESS commerce interface. The left sidebar contains a 'Catalog' menu with options: Home, Orders, Catalog, Products, Categories, Import, Commodity groups (highlighted), Labels, Manufacturers, and Collections. The main content area is titled 'Create commodity group' and features a 'Group title' input field with the text 'Cases for mobile phone' entered. A red arrow points from the 'Create' button to the 'Group title' input field. The 'Create' button is located at the bottom right of the form. The form also includes a 'Use by default' checkbox and two checked options: 'Track products inventory' and 'Physical products'.

Then open the newly created commodity group again:

Home

Total items: 1 Total pages: 1

Show per page: 25

Now you will have access to the "characteristics" tab. The product group already contains such characteristics as "Weight", "Length", "Width", "Height" - these parameters are needed to calculate the delivery. Click "Add Feature":

Edit commodity group "Cases for mobile phones"

Return to the list

Commodity groupAttribute Sets

Add group

Add characteristic

	Title	Type	Sort	
<input type="checkbox"/>				
<input type="checkbox"/>	Case characteristics		50	<div>Archive</div>
<input type="checkbox"/>	Is Charging Case? <i>Case characteristics</i>	radio	20	<div>Archive</div>
<input type="checkbox"/>	Type of case <i>Case characteristics</i>	radio	30	<div>Archive</div>
<input type="checkbox"/>	Film is included <i>Case characteristics</i>	radio	40	<div>Archive</div>
<input type="checkbox"/>	For iphone <i>Case characteristics</i>	checkbox	50	<div>Archive</div>
<input type="checkbox"/>	For iPad <i>Case characteristics</i>	checkbox	60	<div>Archive</div>

In the window that opens, enter the name of the characteristic, for example, "size", select the type: if the product can have several sizes, then select the "Checkbox" type, then enter the possible values for "size". Each value is entered in a separate field. To add the next field, press "Enter" in the previous one. Then save the form - press "Create"
